

NOVA

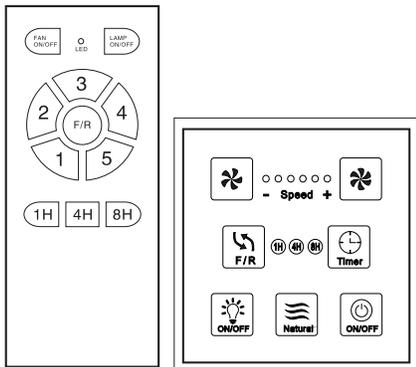

INDOOR/OUTDOOR CEILING FAN

DIAMETER 1.5m, 1.8m & 2.1m

for balcony, patio, pool bar, seaview, ...

1. Dust and Water Resistant

The NOVA ceiling fan has an IPX2 rating, providing protection against light rain and dust. This feature makes it an ideal choice for both indoor and outdoor spaces, including patios and balconies. You can enjoy a refreshing breeze without worrying about the weather conditions.

3. Long-Term Warranty

This product comes with a remarkable 5-year warranty on the motor, along with a 1-year free replacement policy. This ensures peace of mind for consumers, knowing that their investment is protected. If any issues arise in the first year, you can easily replace the fan at no additional cost.

2. Stylish and Versatile Design

The NOVA ceiling fan not only delivers excellent cooling performance but also enhances the aesthetic appeal of your space. Its modern and sleek design seamlessly integrates into any decor, making it a stylish addition to your home or business.

4. Optional Controller

NOVA ceiling fans offer various control options to suit different user preferences and installation requirements.
